

# **REMINDER TO CLUBS**

## **RE DEALING MACHINE SETTINGS**

Please bring Law 6 to the attention of board dealers within your club.

Law 6E4 allow the use of dealing machines providing the hands are totally random as though dealt one card a time from a thoroughly shuffled pack.

We have been told of some clubs using the Deal Master Pro facility activate a setting such that there will never be a passed in board, as the deal generator is set to reject any deal where at least one hand doesn't have opening points.

This is totally illegal and against the laws of bridge.

To deliberately use the Deal Master Pro facility to ensure non random hands is also illegal.

If your club is doing any of the above, please cease immediately. For those clubs who do not understand what I am asking, please contact me at the Office.
